

## Trick or Treat

### **Trick or Treat Title Screen Cinematic:**

*This cinematic plays as part of the title screen. It uses in-game engine.*

### **Flash to:**

Tight shot of a window. It is dark and damp. The window is slick from a recent rain.

*Audio:* thunder in sink with lightning flash

### **Pan back reveal:**

The window is part of a large, unkempt house. It is a gothic lady, well sculpted, but worn by neglect. Reveal ivy and overgrowth.

### **Full shot:**

Full shot / establishing shot of the house. It's the haunted house. The original window is center frame. There is candy on the doorstep, and a child's Halloween mask.

### **Slow, pan back reveal:**

The rest of town is unassuming, standard suburban sprawl. The clouds seem to cover the house, not the neighborhood.

### **Crane out:**

Show children playing under the shadow of the haunted house.

### **Cut to Title Screen:**

Title: "Trick or Treat"
